

# **Cowlitz 2**

## **FIRE & RESCUE**

### *PREFACE*

*On July 1, 2001, Cowlitz 2 Fire and Rescue began a journey that has provided an opportunity for the organization to evaluate the manner in which we function, and to determine a course for our future. We have worked to put the past behind us and focus on our preferred future, with an emphasis on the foundation by which our success will be achieved. We have developed strength in our midlevel managers, and we have focused on our personnel as a primary resource to develop and adopt Long Range Goals and Objectives.*

*The purpose of this document is to provide a framework for the goals and objectives, which make up the Organizational Action Plan. This Plan is consistent with the Long Range Planning Process. The basis for development utilizes the National Incident Management System (NIMS) as the tool to organize the activities and provide a common structure to ensure completion of the organization's mission objectives.*

*This Organizational Action Plan (OAP) is developed to provide focus on five (5) primary areas; they are:*

- *Administration*
- *Operations*
- *Planning*
- *Logistics*
- *Finance*

*Each of these areas will contain sub categories and all activities will relate directly to the Long Range Plan. The OAP will be the basis by which we measure the overall success of the organization and maintain an ongoing planning process.*
